# Welcome

## DEAR FELLOW CATTLEMEN,

The DuVall family would like to extend our sincere thanks for your interest in our annual bull sale. We are very excited about this year's offering, which we believe is one of the deepest and most phenotypically uniform groups we have ever presented. From the front to the back of the sale catalog, you will find bulls that are deep-bodied, thick, and sound-footed.

Today's cattle market is historically strong, rewarding those who can deliver genetics with superior growth and marbling. Our goal is for Capitol Angus bulls to add value and profitability to your herd. Our Angus cow herd is the result of several generations of ET and AI matings, producing consistency and quality year after year.

Many of our cows are full sisters to bulls that have sold here over the past six years. This Capitol Angus cow herd provides a solid foundation, allowing us to build a predictable, uniform bull offering by using top sires from across the American Angus breed. This year, we utilized 18 different sires. We are proud to present our largest offering to date, featuring over 90 lots. The majority of these bulls are calving-ease heifer bulls, and in our pursuit of excellence in carcass merit and growth, we have continued to place a high priority on calving ease. U.S. cattle prices are at all-time record highs, while the nation's stock cow numbers are at their lowest point in 55 years—not seen since 1970. The current supply and demand dynamic, intensified by strong demand for slaughter cattle and a shrinking supply base as replacement heifers are diverted to feedlots, has dramatically changed the marketplace. With these factors, prices appear stable for years ahead. Our best advice: retain your replacement heifers and use Capitol Angus bulls to breed them. We look forward to serving you and helping to grow the future of your operation.

Please join the DuVall family for a complementary Texas Beefhouse brisket lunch immediately before our 1 PM bull sale on November 8, 2025.

These two lead off full brothers share the front of this sale book just like their maternal brothers did last year. This cow has flat made good cattle to look at and that measure up the data as good as any. This is the top heifer pregnancy EPD bull in the sale today with meat and muscle abounding. He is an easy fleshing bull in a calving ease package and top 10% growth EPDs. This is an all around good rascal.

Texas BeefHouse is doing our part in a grassroots transformation of the beef industry. We want to bring control back to the ranchers and consumers. Our model simply involves the rancher, the USDA butcher, and our customers. By cutting out the feedlots, the packers, and the grocery stores, we believe our model returns value and quality back to the rancher and you, the customer.

The top adjusted weaning bull in the sale and good for use on heifers. We used 1681 to cover cows and heifers in the spring of 2025. He had no problem covering cattle and getting them bred. Look for his bulls to be available for purchase in our upcoming sales.

1681 has froze semen.

Texas BeefHouse is doing our part in a grassroots transformation of the beef industry. We want to bring control back to the ranchers and consumers. Our model simply involves the rancher, the USDA butcher, and our customers. By cutting out the feedlots, the packers, and the grocery stores, we believe our model returns value and quality back to the rancher and you, the customer.

There is a lot of bull here and he is safe for heifers. It's easy to find this bull every time I walk into the pasture, he is quiet, calm and follows me around the pen while I am checking the bulls. His sire V A R Conclusion has had a huge impact on our program. Our Conclusion females are some of the best cattle on the ranch.
